2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/.

2024-25 School Description and Mission Statement

Cuyama Valley High is much more than a school; it is a community. This School Accountability Report Card (SARC) highlights our current achievements and outlines our plans for improvement. We strive to establish a closer relationship with our students and parents as we strengthen the ties between school and community. We invite greater involvement from all stakeholders in an effort to showcase the energy and professional dedication of the faculty and staff. Our teachers' continued training in technology, curriculum, social emotional learning, and classroom strategies will ensure that students are prepared for the challenges and promises of tomorrow. CVHS held a WASC review in March of 2023 and received a 6-year accreditation with a 3 year review. 2025-2026 will be the 3 year review.

2024-25 School Description and Mission Statement

An intense focus on academic achievement is evident at Cuyama Valley High School. The faculty remains committed to serving the needs of all students. Becoming a vital center for learning that provides the best educational choices for all students in our attendance area is our most important goal. Our attendance during the 2023-2024 school year remained high eventhough we were dealing with many Covid exposures and students had to stay home for ten days. With an honest appraisal of the entire school program, teachers are building a dynamic environment that prepares all students for the ever-changing demands of our society. However, our Chronic Absenteeism even though it has improved, is an issue that the district will continue to focus on for the 2024-2025 school year.

Our District

Cuyama Joint Unified School District serves a community centrally located in the beautiful Cuyama Valley, a remote northeastern section of Santa Barbara County. The area is very rural with farming and natural resources the key industries. It is the District's philosophy that public education is of fundamental importance to a free society and to the continued development of democratic values, individual liberty and an appreciation for cultural diversity in society. The District's objective is to provide the guidance and resources necessary to insure an environment conducive to learning. In order for education to succeed, there must be an ongoing partnership between parents, students, educators, and the community. It is important to emphasize that the goal of our educational system is not to supplant parental responsibilities throughout the learning process. Rather, it is the policy of the District to foster parental participation in order that an educational climate is created which reinforces and fosters the positive and healthy development of the child. The District's first goal is to provide each student with the basic skills necessary to participate and function effectively in society. The District is committed to the goal of achieving academic excellence through a program of instruction and experiences which offers each child an opportunity to develop to the maximum of his or her individual capabilities. In addition, the district will offered parents to engage with our staff on a more consistent and effective basis.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Cuyama Valley High School is in the process of updating all curriculum, selected from the most recent list of standards-based materials adopted by the State Board of Education. New English Language Arts curriculum, aligned with Common Core State Standards (CCSS) was adopted in the 2016/2017 school year. New mathematics curriculum, aligned with the Common Core State Standards, was adopted for the 2018/2019 school year. Science curriculum will be purchased as soon as it becomes available. A history/social science program was piloted for the 2018/2019 and 2019/2020 school year. Staff will analyze the success of the program, and look to adopt the curriculum, based on student achievement data.

School Facility Conditions and Planned Improvements

In addition to regular classrooms, Cuyama Valley High School has an administration building, library, full kitchen and cafeteria, industrial arts classrooms, and multipurpose gymnasium that are safe, clean, and provide adequate space for student and community activities. We have a computer classroom, a weight room, and tennis courts. The main campus was built in 1957.

Improvements have occurred with the passing of a local bond. Over the past two years, there has been asbestos removal, new flooring installed in all the classrooms and office, the demolition of the swimming pool and construction of new outdoor basketball courts. The electrical system was completely replaced in 2020.

The district takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district used a facility survey instrument developed by the State of California Office of Public School Instruction. The results of this survey are available at the school office or district office.

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Our school is in good repair, according to the criteria established by the Office of Public School Construction. Our deficiencies are minor ones resulting from common wear and tear, and there are few of them. We scored between 98 and 100 percent on the categories of our evaluation.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2023-24 Career Technical Education Programs

Cuyama Valley High School is dedicated to preparing students to be successful whether they choose to further their education, join the armed forces, or enter the workforce. The CTE courses fit well with academic courses. Agriculture Chemistry, Agriculture Biology, and Agriculture Physics have been A-G approved. Most CTE courses are A-G approved, so that all students have as many options as possible available to them upon graduation. For the 2023-20234 school year, the CVHS has three pathways at the school. Students are evaluated through a skills assessment upon the completion of agriculture courses. Angel Cannon is the primary representative of the advisory committee (2023-2024) with local agriculture industries represented on the committee.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents are encouraged to be active participants in their child's education. They are encouraged to attend yearly parent-teacher conferences, Back to School Night, and the many sporting events, FFA meetings/events, and other campus activities. During the 2023-2024 school year, most of the events were conducted in person now that the Covid-19 pandemic concerns have dissipated. Students attend school in person each day. Parents can be a part of School Site Council, District Advisory

Council, and ELAC/DELAC committee, and are welcome to become volunteers on campus and at school events now that the Covid-19 protocols are lifted. Our parents also attend and participate in input sessions for the LCAP that are held throughout the year. In addition, the district plans to bring the Parent Institute for Quality Education (PIQE) programs to our high school in 2024-2025.

2024-25 School Safety Plan

A School Safety Plan (Revised January 2024), board approved in January of 2024, is on file, and earthquake, fire, and lockdown drills are held regularly now that in-person instruction has resumed since 2021-2022 and continuing in 2022-2023, 2023-2024, 2024-2025, and for the foreseeable future. While we pride ourselves on our safe community, we ensure that emergency response procedures are in place. Faculty, staff, and students are trained to exit the school buildings safely. Teacher responsibilities regarding student safety are reviewed during each school year. Classified staff members are also trained to assist in case of an emergency. Staff is on duty and assigned to monitor all students both in classrooms and on the school grounds.

The school is aware of and complies with laws and regulations regarding hazardous materials. Laboratory and chemical supplies are carefully housed, and their use is diligently monitored. A regularly scheduled maintenance program ensures classrooms, restrooms, and other facilities are kept in good repair.

Professional Development

For the 2023-2024 school year, after examining student data and gathering teaching input, it was determined that staff development would focus on Universal Design for Learning (UDL) and social-emotional learning as well as reading data to drive student instruction. Support has been provided by the Santa Barbara Office of Education with one-on-one coaching and after school workshops, along with conference attendance. Teachers meet frequently to discuss data and revise instructional strategies. In moving forward with the 2023-2024 and 2024-2025 school years, educators are continuing to deepen their knowledge of UDL, and have added discovering more about the Social Emotional Learning components of UD especially now that our students spent close to 1.5 years on a distance learning program due to the Covd-19 pandemic. One-on-one coaching is still a practice, along with after school workshops. Several teachers are part of the Multi-Tiered Systems of Support (MTSS) team and have attended training in positive behavioral supports. District also receiving differentiated assistance from SBCEO in the areas of Special Education and ELD student academic performance.

Cuyama Valley High School has continued to develop and deepen practices with on-going professional development in the realms of MTSS and UDL for the 2023-2024 school year. With the return to in-person instruction in 2021-2022, 2022-2023, 2023-2024, and moving forward, professional development was added to better support teacher and students by receiving sessions on Social Emotional learning. Most SBCEO PD was conducted in person for the 2023-2024 school year. The in-person PD will continue into 2024-2025 and beyond.
