General Loading/Unloading Procedures of the School Bus

The School Bus Danger Zone

Each student must be aware of the area surrounding the school bus called the Danger Zone. The Danger Zone is the area extending 12 feet in all directions from the school bus in which serious student injuries and deaths occur. When the student boards and leaves the school bus they must follow the routes shown on the Danger Zone illustration. This places them within view of the school bus driver at all times.

Procedures for Boarding the Bus

- ☐ Students should learn the correct route identification for the route they are riding to school or home.
- ☐ Students shall wait at designated bus stops, and they shall arrive 5 minutes before the bus is scheduled to arrive. Students waiting for the bus shall do so in a safe location.
- ☐ Students will not run towards the bus when the bus is approaching.
- ☐ Students will wait at least twelve (12) feet back from the edge of the curb or roadway.
- ☐ Students will wait in line forming away from the edge of the curb or roadway.
- ☐ Students will wait for the bus to come to a complete stop and will not approach the bus until the front door is opened.
- ☐ Students will take a seat on their own or as directed by the driver of the bus.
- ☐ Students shall talk quietly, not stand up nor turn around in the seat, respect others and their property as well as the integrity of the school bus. There is no eating, drinking or gum chewing allowed while on the bus by students.

Procedures for Unloading the Bus at School or at Bus Stop

- ☐ Students will remain seated until the bus comes to a complete stop and the bus door is opened. The bus is not considered stopped until the door opens. Students shall not stand on the bus while the bus is in motion.
- ☐ Student will exit the bus one row at a time beginning with the front of the bus in an orderly manner in compliance with the driver's instructions.
- ☐ Students will use the handrail at the door and walk down each step to the ground.
- ☐ After exiting, students should walk away from the bus and not touch or lean against the bus. They will not return to or run after the bus. There will be no horseplay at or near the bus.
- ☐ Students shall not cross the street upon which the bus is parked without assistance from the bus driver. Parents/guardians should wait on the side of the street which the designated stop is located.
- ☐ **Students' parents/guardians must be present, waiting on the same side of the street as the bus stop.** If must-be-met student's parent or guardian is not present and the transportation department is not able to make contact the student will be returned to the transportation

department.

Procedures for Exiting the Bus at Escorted Stops

- ☐ Students will be given instruction to wait at an area designated by the driver.
- ☐ When escorting students, the driver shall, before opening the door, ensure that the flashing red light signal system and stop signal arm (if equipped) are activated and it is safe to exit the bus.
- ☐ The driver will exit the bus and walk approximately 10 feet in front of the bus before turning to enter the roadway and instruct the student to “wait”
- ☐ Using the handheld stop sign, the driver will walk to the center of the street and assure all traffic is topped before verbally signaling the student to walk between the bus and the driver. The driver shall escort the student across the street in front of the bus and follow the last student on the bus, making sure that all students are across the street before leaving the street.

When Crossing the Roadway

- ☐ Cuyama Joint Unified School District requires all school bus drivers to escort all students, 6th through 12th grade, who need to go across the street as they depart the bus.
Parents/guardians of Pre- Kindergarten through 5th grade need to be on the same side of the road as the bus.
- ☐ Always let your bus driver be the first person off the bus. The driver needs to activate the bus “red lights” that flash on the outside of the bus to warn cars to stop for children crossing the street.
- ☐ Once your driver is off the bus, you can walk down the bus steps, and wait on the sidewalk or dirt shoulder next to the bus, for your driver to direct you to cross the street. Never go out into the street without the bus driver telling you to do so!
- ☐ Always walk between the bus and the bus driver, as you cross the street. Once you are on the other side of the street, stay on that side of the street. Do not play in the street. Go directly home.
- ☐ At a traffic light, all students must comply with directions of the official traffic controlled signal on the street.

Walking to and from Bus Stops

- ☐ Go directly home from the bus stop. Plan the safest route with the fewest streets to cross.
- ☐ If possible cross streets and corner. Look in all directions before crossing and when safe walk across the street. Always obey traffic signals.
- ☐ Watch for vehicles that might be making a turn.
- ☐ Do not dart from between parked cars or shrubbery.
- ☐ Never accept a ride from a stranger.
- ☐ If possible, face traffic when walking on road without sidewalks and always use caution.
- ☐ Be extra careful during time of sunrise and sunset, bad weather and during darkness (wear white clothing or something reflective).
- ☐ Leave home early enough so you do not have to run.

School Bus Safety Information

- Riding on a school bus is one of the safest, if not the safest form of transportation in the nation. School bus drivers carry the most precious cargo that can be carried over the roadways. Drivers are trained and continue to be trained throughout their careers. They even have to demonstrate their skills to the California Highway Patrol through periodic testing so they can continue to drive a school bus.
 - Riding in a school bus is
 - : • 172 times safer than your family automobile
 - 8 times safer than passenger trains or commercial airlines
 - 4 times safer than transit buses or intercity buses
- Collisions are rare because school districts and the drivers themselves train and work hard at driving defensively to avoid collisions. In addition, the school buses themselves are designed to withstand all but the most serious crashes without death or serious injury. With continued training, to help children learn how to get on and off the school bus safely, parents, drivers and teachers can help prevent the remaining few collisions that now occur.
